Bulk Cargo Operations

Digitize Every Ton — From Vessel to Settlement

The most comprehensive bulk cargo management platform built for Indian stevedores, port operators, and cargo handlers.

300+

Companies

50+

Faster Billing

99.9%

Uptime

Sound Familiar?

These are the problems your team faces every single day.

Manual Tonnage Records

Paper-based weighment slips get lost, disputed, and delay billing by weeks.

Multi-Party Billing Chaos

Splitting charges between shipper, consignee, line, and port is done on spreadsheets.

No Real-Time Visibility

You don't know vessel status, cargo position, or storage charges until someone calls.

Compliance Nightmares

GST reconciliation across 50+ parties per vessel takes days of manual work.

→ The Logiintra Solution

Logiintra replaces your spreadsheets, paper registers, and phone calls with one unified platform that tracks every ton from vessel arrival to final settlement.

What You Can Do

Powerful capabilities that transform how your team works.

1

Vessel & Voyage Control Center

Real-time vessel tracking dashboard showing berth allocation, ETA/ETD, cargo plans, and voyage economics. Track multiple vessels simultaneously across ports. Automatic vessel schedule updates and stakeholder notifications.

- Live vessel dashboard
- Voyage P&L tracking
- Berth allocation manager
- Auto ETA notifications

2

Smart Cargo Movement Engine

Track every cargo movement with GPS-tagged timestamps — from vessel hold to weighbridge to storage yard to truck dispatch. Complete chain of custody with zero discrepancies.

- GPS-tagged movements
- Quality parameter capture
- Weighbridge integration
- Movement audit trail

3

Intelligent Multi-Party Billing

Auto-generate invoices for shippers, consignees, shipping lines, port authorities, transporters, and surveyors. Complex split billing calculated automatically based on your rate contracts.

- Auto split billing
- Debit/credit notes
- Rate contract engine
- GST auto-calculation

4

Storage & Yard Intelligence

Plot-wise inventory tracking with automated storage charge calculation. Free time management, slab-based rates, and real-time yard utilization dashboards.

- Plot-wise inventory
- Auto rental billing
- Yard utilization maps
- Free time alerts

5

Stevedoring Operations Hub

Gang-wise labor deployment, equipment utilization tracking, crane hours logging, and contractor billing automation. Productivity analytics per gang and per shift.

- Gang deployment
- Equipment tracking
- Shift productivity
- Contractor billing

6

Document Intelligence

AI reads your Bills of Lading, cargo manifests, survey reports, and weighment slips — creating entries automatically. The system learns your document formats and improves over time.

- AI document reading
- Auto data extraction
- Survey report capture
- Smart form filling

The Transformation

See what changes when you switch to Logiintr.

X BEFORE

Billing takes 15 days per vessel. 3 people manually reconcile tonnage. Storage charges calculated on Excel.

✓ AFTER

Billing in 3 days. Zero manual reconciliation. Storage charges auto-calculated with slab rates and GST.

Impact Numbers

80%

Less Manual Work

15 → 3

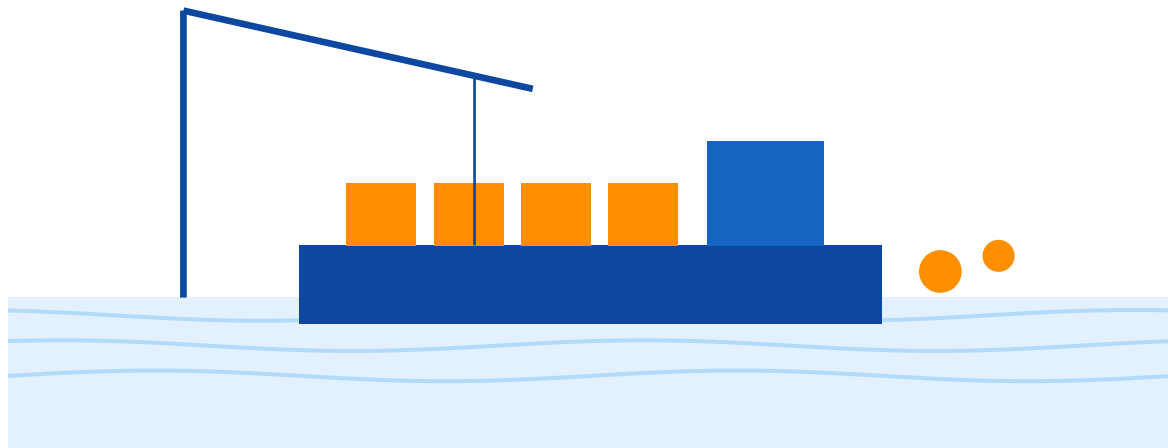

Days to Bill

2

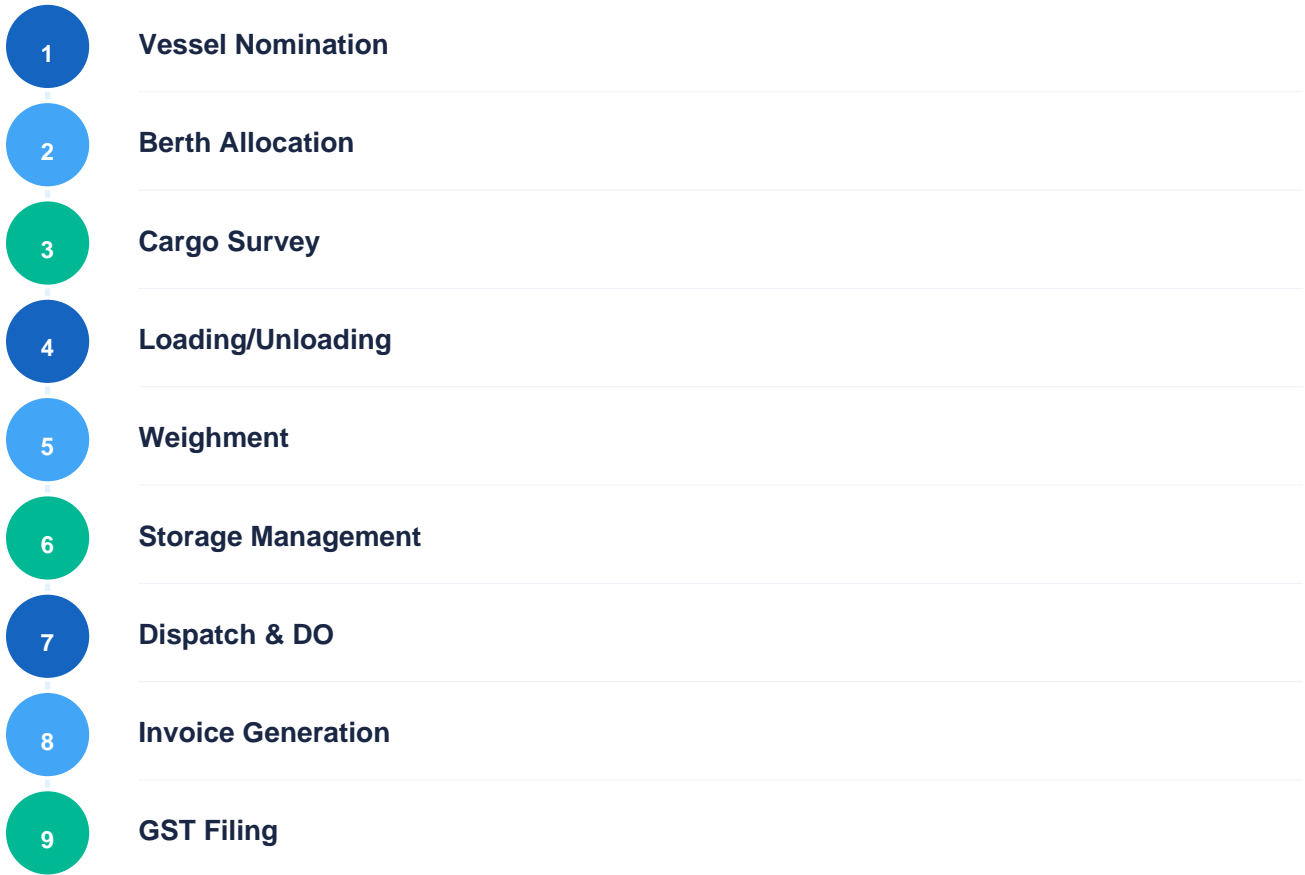

FTEs Saved

Zero

Tonnage Disputes

End-to-End Workflow

Built For

- Stevedoring companies
- Bulk cargo handlers & traders
- Cargo surveyors
- Port terminal operators
- Ship agents & brokers
- Storage yard operators

Logiintra reduced our billing cycle from 15 days to 3 days. The multi-party billing automation alone saved us 2 FTEs.

— Operations Head, Leading Stevedore at Kandla Port
