Fleet Transportation

Every Trip Tracked. Every Rupee Accounted.

India's most powerful Transport Management System for fleet owners and transport companies.

80+

Faster Settlements

Real-time

Tracking

Sound Familiar?

These are the problems your team faces every single day.

Paper LRs Everywhere

Lorry receipts on carbon paper. Copies get lost. PODs take weeks to return. Billing waits on paper.

Settlement Nightmares

Driver settlements involve 10+ line items calculated manually. Disputes with drivers are daily.

Fuel Theft

No way to verify actual fuel consumption vs. claimed amounts. Estimated 10-15% fuel cost leakage.

Fleet Blindness

You don't know which trucks are running, which are idle, or which need maintenance — until they break down.

→ The Logiintra Solution

Logiintra digitizes your entire fleet operation. From the moment a trip is booked to the final settlement — every kilometer, every liter, every rupee is tracked automatically.

What You Can Do

Powerful capabilities that transform how your team works.

1

Digital LR Revolution

Replace carbon-copy lorry receipts with digital LRs. Auto-generate LR numbers, capture consignment details, track delivery status, and collect e-POD. Clients get real-time shipment visibility.

- Digital LR generation
- Client tracking portal
- e-POD collection
- Auto LR numbering

2

One-Click Trip Settlement

Auto-calculate everything — driver payments, fuel advances, tolls, loading/unloading, halting charges, and deductions. Generate settlement sheets with one click. Zero disputes.

- Auto calculation
- Deduction tracking
- Advance adjustment
- One-click settlement

3

Fuel Intelligence System

Issue digital fuel vouchers with pump-specific tracking. Monitor consumption per km per vehicle. AI detects anomalies and flags suspicious claims. Save 10-15% on fuel costs.

- Digital fuel vouchers
- Anomaly detection
- Consumption analytics
- Pump reconciliation

4

Driver Salary Automation

Calculate salaries based on trips, distance, tonnage, or fixed salary. Handle advances, deductions, bonuses, and attendance. Auto-generate pay slips with PF/ESI compliance.

- Multi-formula salary
- Attendance tracking
- Advance management
- PF/ESI compliance

5

Predictive Maintenance

Schedule preventive maintenance based on km run, not calendar dates. Track tyre lifecycle, fitness certificates, permits, insurance renewals, and repair history per vehicle.

- KM-based scheduling
- Permit tracking
- Tyre lifecycle
- Repair history

6

Fleet Command Dashboard

See every vehicle in your fleet — running, idle, in maintenance, or available. Utilization rates, revenue per km, cost per km, and profitability per vehicle on one screen.

- Vehicle status board
- Revenue per km
- Utilization analytics
- Vehicle P&L

The Transformation

See what changes when you switch to Logiintra.

X BEFORE

Settlement takes 2 weeks. Fuel costs are 15% higher than they should be. 30% of fleet sits idle without anyone knowing.

✓ AFTER

Settlement in 24 hours. Fuel costs reduced by 12%. Fleet utilization improved from 65% to 85%.

End-to-End Workflow

Built For

- Fleet owners & transport companies
- Tanker operators
- Courier & express
- Logistics service providers
- Container trailer operators
- Multi-modal operators

Our drivers get settled within 24 hours now instead of 2 weeks. The fuel voucher tracking alone saved us 12% on fuel costs by catching discrepancies.

— Owner, Fleet of 200+ Trucks, Gujarat
