Warehouse Management

Every Box Tracked. Every Square Foot Billed.

Smart warehouse management system for 3PL providers, logistics warehouses, and storage operators across India.

Stock View

Sound Familiar?

These are the problems your team faces every single day.

Stock Discrepancies

Physical stock never matches register stock. Audits reveal gaps that take days to reconcile.

Billing Errors

Manual storage charge calculation leads to under-billing (lost revenue) or over-billing (client disputes).

No Client Visibility

Clients call asking "where's my cargo?" and you have to walk the warehouse to check.

Space Waste

No visibility into which areas are full, empty, or underutilized. Capacity planning is guesswork.

→ The LogiIntra Solution

LogiIntra turns your warehouse from a black box into a transparent, automated operation. Every item tracked to the bin level, every square foot billed automatically, every client sees their stock in real-time.

What You Can Do

Powerful capabilities that transform how your team works.

1

Precision Inward Management

Record all incoming cargo with barcode/QR scanning — weight, quantity, packaging, condition, lot number, and storage instructions. Photo documentation and GRN auto-generation.

- Barcode/QR scanning
- Auto GRN generation
- Photo documentation
- Condition recording

2

Bin-Level Inventory Intelligence

Track inventory at warehouse → zone → rack → shelf → bin level. Real-time stock visibility across all locations. FIFO/LIFO allocation and batch tracking.

- 5-level location tracking
- Batch & lot tracking
- FIFO/LIFO allocation
- Real-time stock map

3

Automated Rental Billing Engine

Calculate storage charges based on weight, area, pallet positions, or CBM. Handle free time, slab-based rates, minimum charges, and auto-generate periodic invoices with GST.

- Multi-formula billing
- Slab-based rates
- Free time management
- Auto invoice generation

4

Smart Dispatch Management

Process dispatch orders with auto-generated picking lists, packing verification, vehicle assignment, gate pass, and delivery note. Complete dispatch audit trail.

- Picking list automation
- Gate pass system
- Packing verification
- Delivery tracking

5

Multi-Client Portal

Each client gets their own login to view stock, request dispatches, download reports, and track movements. Complete data segregation with role-based access.

- Client self-service
- Dispatch requests
- Stock reports
- Movement history

6

Warehouse Analytics Suite

Space utilization heatmaps, cargo aging reports, movement velocity analysis, and capacity forecasting. Make data-driven decisions about expansion and pricing.

- Space utilization maps
- Movement velocity
- Aging analysis
- Capacity forecasting

The Transformation

See what changes when you switch to Logiintra.

X BEFORE

Stock accuracy: 92%. Billing: manual Excel, 40 hours/month. Client calls: 20+ daily asking stock status.

✓ AFTER

Stock accuracy: 99.9%. Billing: automated, 0 hours. Client calls: near zero — they check the portal.
